## Welcome to Paradise!

*Pride is celebrated all over the world but no place does it quite like Key West!*

*The cover photo contributed by Andy Newman was taken in 2003 when Gilbert Baker, the creator of the original pride flag, came to Key West and created a flag that reached from the Atlantic Ocean to the Gulf of Mexico.*

*Sections of this flag have been used in pride events all over the world!*

Enjoy!

## What is STRIBILD?

STRIBILD is a prescription medicine used to treat HIV-1 in adults who have never taken HIV-1 medicines before. It combines 4 medicines into 1 pill to be taken once a day with food. STRIBILD is a complete single-tablet regimen and should not be used with other HIV-1 medicines.

**STRIBILD does not cure HIV-1 infection or AIDS.** To control HIV-1 infection and decrease HIV-related illnesses you must keep taking STRIBILD. Ask your healthcare provider if you have questions about how to reduce the risk of passing HIV-1 to others. Always practice safer sex and use condoms to lower the chance of sexual contact with body fluids. Never reuse or share needles or other items that have body fluids on them.

## IMPORTANT SAFETY INFORMATION

### What is the most important information I should know about STRIBILD?

STRIBILD can cause serious side effects:

- **Build-up of an acid in your blood (lactic acidosis)**, which is a serious medical emergency. Symptoms of lactic acidosis include feeling very weak or tired, unusual (not normal) muscle pain, trouble breathing, stomach pain with nausea or vomiting, feeling cold especially in your arms and legs, feeling dizzy or lightheaded, and/or a fast or irregular heartbeat.
- **Serious liver problems.** The liver may become large (hepatomegaly) and fatty (steatosis). Symptoms of liver problems include your skin or the white part of your eyes turns yellow (jaundice), dark "tea-colored" urine, light-colored bowel movements (stools), loss of appetite for several days or longer, nausea, and/or stomach pain.
- **You may be more likely to get lactic acidosis or serious liver problems** if you are female, very overweight (obese), or have been taking STRIBILD for a long time. In some cases, these serious conditions have led to death. Call your healthcare provider right away if you have any symptoms of these conditions.

- **Worsening of hepatitis B (HBV) infection.** If you also have HBV and stop taking STRIBILD, your hepatitis may suddenly get worse. Do not stop taking STRIBILD without first talking to your healthcare provider, as they will need to monitor your health. STRIBILD is not approved for the treatment of HBV.

### Who should not take STRIBILD?

Do not take STRIBILD if you:

- **Take a medicine that contains:** alfuzosin, dihydroergotamine, ergotamine, methylergonovine, cisapride, lovastatin, simvastatin, pimozide, sildenafil when used for lung problems (Revatio®), triazolam, oral midazolam, rifampin or the herb St. John's wort.
- **For a list of brand names for these medicines,** please see the Brief Summary on the following pages.
- **Take any other medicines to treat HIV-1 infection,** or the medicine adefovir (Hepsera®).

### What are the other possible side effects of STRIBILD?

Serious side effects of STRIBILD may also include:

- **New or worse kidney problems, including kidney failure.** Your healthcare provider should do regular blood and urine tests to check your kidneys before and during treatment with STRIBILD. If you develop kidney problems, your healthcare provider may tell you to stop taking STRIBILD.
- **Bone problems,** including bone pain or bones getting soft or thin, which may lead to fractures. Your healthcare provider may do tests to check your bones.
- **Changes in body fat** can happen in people taking HIV-1 medicines.
- **Changes in your immune system.** Your immune system may get stronger and begin to fight infections. Tell your healthcare provider if you have any new symptoms after you start taking STRIBILD.

The most common side effects of STRIBILD include nausea and diarrhea. Tell your healthcare provider if you have any side effects that bother you or don't go away.

### What should I tell my healthcare provider before taking STRIBILD?

- **All your health problems.** Be sure to tell your healthcare provider if you have or had any kidney, bone, or liver problems, including hepatitis virus infection.
- **All the medicines you take,** including prescription and nonprescription medicines, vitamins, and herbal supplements. STRIBILD may affect the way other medicines work, and other medicines may affect how STRIBILD works. Keep a list of all your medicines and show it to your healthcare provider and pharmacist. Do not start any new medicines while taking STRIBILD without first talking with your healthcare provider.
- **If you take hormone-based birth control** (pills, patches, rings, shots, etc.).
- **If you take antacids.** Take antacids at least 2 hours before or after you take STRIBILD.
- **If you are pregnant or plan to become pregnant.** It is not known if STRIBILD can harm your unborn baby. Tell your healthcare provider if you become pregnant while taking STRIBILD.
- **If you are breastfeeding** (nursing) or plan to breastfeed. Do not breastfeed. HIV-1 can be passed to the baby in breast milk. Also, some medicines in STRIBILD can pass into breast milk, and it is not known if this can harm the baby.

You are encouraged to report negative side effects of prescription drugs to the FDA. Visit [www.fda.gov/medwatch](http://www.fda.gov/medwatch), or call 1-800-FDA-1088.

Please see Brief Summary of full Prescribing Information with important warnings on the following pages.

STRIBILD is a prescription medicine used as a complete single-tablet regimen to treat HIV-1 in adults who have never taken HIV-1 medicines before. STRIBILD does not cure HIV-1 or AIDS.

## I started my personal revolution

Talk to your healthcare provider about starting treatment.

**STRIBILD** is a complete HIV-1 treatment in **1 pill**, once a day.

Ask if it's right for you.

**STRIBILD**® 

elvitegravir 150mg/ cobicistat 150mg/ emtricitabine  
200mg/ tenofovir disoproxil fumarate 300mg tablets

## Patient Information

### STRIBILD® (STRY-bild)

(elvitegravir 150 mg/cobicistat 150 mg/  
emtricitabine 200 mg/tenofovir disoproxil  
fumarate 300 mg) tablets

Brief summary of full Prescribing Information. For more information, please see the full Prescribing Information, including Patient Information.

### What is STRIBILD?

---

- **STRIBILD is a prescription medicine used to treat HIV-1 in adults who have never taken HIV-1 medicines before.** STRIBILD is a complete regimen and should not be used with other HIV-1 medicines.
- **STRIBILD does not cure HIV-1 or AIDS.** You must stay on continuous HIV-1 therapy to control HIV-1 infection and decrease HIV-related illnesses.
- **Ask your healthcare provider about how to prevent passing HIV-1 to others.** Do not share or reuse needles, injection equipment, or personal items that can have blood or body fluids on them. Do not have sex without protection. Always practice safer sex by using a latex or polyurethane condom to lower the chance of sexual contact with semen, vaginal secretions, or blood.

### What is the most important information I should know about STRIBILD?

---

**STRIBILD can cause serious side effects, including:**

**1. Build-up of lactic acid in your blood (lactic acidosis).** Lactic acidosis can happen in some people who take STRIBILD or similar (nucleoside analogs) medicines. Lactic acidosis is a serious medical emergency that can lead to death. Lactic acidosis can be hard to identify early, because the symptoms could seem like symptoms of other health problems. **Call your healthcare provider right away if you get any of the following symptoms which could be signs of lactic acidosis:**

- feel very weak or tired
- have unusual (not normal) muscle pain
- have trouble breathing
- have stomach pain with nausea or vomiting
- feel cold, especially in your arms and legs
- feel dizzy or lightheaded
- have a fast or irregular heartbeat

**2. Severe liver problems.** Severe liver problems can happen in people who take STRIBILD. In some cases, these liver problems can lead to death. Your liver may become large (hepatomegaly) and you may develop fat in your liver (steatosis). **Call your healthcare provider right away if you get any of the following symptoms of liver problems:**

- your skin or the white part of your eyes turns yellow (jaundice)
- dark “tea-colored” urine
- light-colored bowel movements (stools)
- loss of appetite for several days or longer
- nausea
- stomach pain

**You may be more likely to get lactic acidosis or severe liver problems if you are female, very overweight (obese), or have been taking STRIBILD for a long time.**

- 3. Worsening of Hepatitis B infection.** If you have hepatitis B virus (HBV) infection and take STRIBILD, your HBV may get worse (flare-up) if you stop taking STRIBILD. A “flare-up” is when your HBV infection suddenly returns in a worse way than before.
- Do not run out of STRIBILD. Refill your prescription or talk to your healthcare provider before your STRIBILD is all gone
  - Do not stop taking STRIBILD without first talking to your healthcare provider
  - If you stop taking STRIBILD, your healthcare provider will need to check your health often and do blood tests regularly for several months to check your HBV infection. Tell your healthcare provider about any new or unusual symptoms you may have after you stop taking STRIBILD

### Who should not take STRIBILD?

---

**Do not take STRIBILD if you also take a medicine that contains:**

- adefovir (Hepsera®)
- alfuzosin hydrochloride (Uroxatral®)
- cisapride (Propulsid®, Propulsid Quicksolv®)
- ergot-containing medicines, including: dihydroergotamine mesylate (D.H.E. 45®, Migranal®), ergotamine tartrate (Cafergot®, Migergot®, Ergostat®, Medihaler Ergotamine®, Wigraine®, Wigrettes®), and methylergonovine maleate (Ergotrate®, Methergine®)
- lovastatin (Advicor®, Altoprev®, Mevacor®)
- oral midazolam
- pimozone (Orap®)
- rifampin (Rifadin®, Rifamate®, Rifater®, Rimactane®)
- sildenafil (Revatio®), when used for treating lung problems
- simvastatin (Simcor®, Vytorin®, Zocor®)
- triazolam (Halcion®)
- the herb St. John’s wort

**Do not take STRIBILD if you also take any other HIV-1 medicines, including:**

- Other medicines that contain tenofovir (Atripla<sup>®</sup>, Complera<sup>®</sup>, Viread<sup>®</sup>, Truvada<sup>®</sup>)
- Other medicines that contain emtricitabine, lamivudine, or ritonavir (Atripla<sup>®</sup>, Combivir<sup>®</sup>, Complera<sup>®</sup>, Emtriva<sup>®</sup>, Epivir<sup>®</sup> or Epivir-HBV<sup>®</sup>, Epzicom<sup>®</sup>, Kaletra<sup>®</sup>, Norvir<sup>®</sup>, Trizivir<sup>®</sup>, Truvada<sup>®</sup>)

**STRIBILD is not for use in people who are less than 18 years old.**

**What are the possible side effects of STRIBILD?**

**STRIBILD may cause the following serious side effects:**

- **See “What is the most important information I should know about STRIBILD?”**
- **New or worse kidney problems, including kidney failure.** Your healthcare provider should do blood and urine tests to check your kidneys before you start and while you are taking STRIBILD. Your healthcare provider may tell you to stop taking STRIBILD if you develop new or worse kidney problems.
- **Bone problems** can happen in some people who take STRIBILD. Bone problems include bone pain, softening or thinning (which may lead to fractures). Your healthcare provider may need to do tests to check your bones.
- **Changes in body fat** can happen in people who take HIV-1 medicine. These changes may include increased amount of fat in the upper back and neck (“buffalo hump”), breast, and around the middle of your body (trunk). Loss of fat from the legs, arms and face may also happen. The exact cause and long-term health effects of these conditions are not known.
- **Changes in your immune system** (Immune Reconstitution Syndrome) can happen when you start taking HIV-1 medicines. Your immune system may get stronger and begin to fight infections that have been hidden in your body for a long time. Tell your healthcare provider right away if you start having any new symptoms after starting your HIV-1 medicine.

**The most common side effects of STRIBILD include:**

- Nausea
- Diarrhea

**Tell your healthcare provider if you have any side effect that bothers you or that does not go away.**

- These are not all the possible side effects of STRIBILD. For more information, ask your healthcare provider.
- Call your healthcare provider for medical advice about side effects. You may report side effects to FDA at 1-800-FDA-1088.

**What should I tell my healthcare provider before taking STRIBILD?**

**Tell your healthcare provider about all your medical conditions, including:**

- If you have or had any kidney, bone, or liver problems, including hepatitis B infection
- If you are pregnant or plan to become pregnant. It is not known if STRIBILD can harm your unborn baby. Tell your healthcare provider if you become pregnant while taking STRIBILD.
  - There is a pregnancy registry for women who take antiviral medicines during pregnancy. The purpose of this registry is to collect information about the health of you and your baby. Talk with your healthcare provider about how you can take part in this registry.
- If you are breastfeeding (nursing) or plan to breastfeed. Do not breastfeed if you take STRIBILD.
  - You should not breastfeed if you have HIV-1 because of the risk of passing HIV-1 to your baby.
  - Two of the medicines in STRIBILD can pass to your baby in your breast milk. It is not known if the other medicines in STRIBILD can pass into your breast milk.
  - Talk with your healthcare provider about the best way to feed your baby.

**Tell your healthcare provider about all the medicines you take, including prescription and nonprescription medicines, vitamins, and herbal supplements:**

- STRIBILD may affect the way other medicines work, and other medicines may affect how STRIBILD works.
- Be sure to tell your healthcare provider if you take any of the following medicines:
  - Hormone-based birth control (pills, patches, rings, shots, etc)
  - Antacid medicines that contain aluminum, magnesium hydroxide, or calcium carbonate. Take antacids at least 2 hours before or after you take STRIBILD
  - Medicines to treat depression, organ transplant rejection, or high blood pressure
  - amiodarone (Cordarone<sup>®</sup>, Pacerone<sup>®</sup>)
  - atorvastatin (Lipitor<sup>®</sup>, Caduet<sup>®</sup>)
  - bepridil hydrochloride (Vasacor<sup>®</sup>, Bepadin<sup>®</sup>)
  - bosentan (Tracleer<sup>®</sup>)
  - buspirone
  - carbamazepine (Carbatrol<sup>®</sup>, Eptol<sup>®</sup>, Equetro<sup>®</sup>, Tegreto<sup>®</sup>)
  - clarithromycin (Biaxin<sup>®</sup>, Prevpac<sup>®</sup>)

- clonazepam (Klonopin<sup>®</sup>)
- clorazepate (Gen-xene<sup>®</sup>, Tranxene<sup>®</sup>)
- colchicine (Colcrys<sup>®</sup>)
- medicines that contain dexamethasone
- diazepam (Valium<sup>®</sup>)
- digoxin (Lanoxin<sup>®</sup>)
- disopyramide (Norpace<sup>®</sup>)
- estazolam
- ethosuximide (Zarontin<sup>®</sup>)
- flecainide (Tambocor<sup>®</sup>)
- flurazepam
- fluticasone (Flovent<sup>®</sup>, Flonase<sup>®</sup>, Flovent<sup>®</sup> Diskus<sup>®</sup>, Flovent<sup>®</sup> HFA, Veramyst<sup>®</sup>)
- itraconazole (Sporanox<sup>®</sup>)
- ketoconazole (Nizoral<sup>®</sup>)
- lidocaine (Xylocaine<sup>®</sup>)
- mexiletine
- oxcarbazepine (Trileptal<sup>®</sup>)
- perphenazine
- phenobarbital (Luminal<sup>®</sup>)
- phenytoin (Dilantin<sup>®</sup>, Phenytek<sup>®</sup>)
- propafenone (Rythmol<sup>®</sup>)
- quinidine (Neudexta<sup>®</sup>)
- rifabutin (Mycobutin<sup>®</sup>)
- rifapentine (Priftin<sup>®</sup>)
- risperidone (Risperdal<sup>®</sup>, Risperdal Consta<sup>®</sup>)
- salmeterol (Serevent<sup>®</sup>) or salmeterol when taken in combination with fluticasone (Advair Diskus<sup>®</sup>, Advair HFA<sup>®</sup>)
- sildenafil (Viagra<sup>®</sup>), tadalafil (Cialis<sup>®</sup>) or vardenafil (Levitra<sup>®</sup>, Staxyn<sup>®</sup>), for the treatment of erectile dysfunction (ED). If you get dizzy or faint (low blood pressure), have vision changes or have an erection that last longer than 4 hours, call your healthcare provider or get medical help right away.
- tadalafil (Adcirca<sup>®</sup>), for the treatment of pulmonary arterial hypertension
- telithromycin (Ketek<sup>®</sup>)
- thioridazine
- voriconazole (Vfend<sup>®</sup>)
- warfarin (Coumadin<sup>®</sup>, Jantoven<sup>®</sup>)
- zolpidem (Ambien<sup>®</sup>, Edlular<sup>®</sup>, Intermezzo<sup>®</sup>, Zolpimist<sup>®</sup>)

**Know the medicines you take.** Keep a list of all your medicines and show it to your healthcare provider and pharmacist when you get a new medicine. Do not start any new medicines while you are taking STRIBILD without first talking with your healthcare provider.

**Keep STRIBILD and all medicines out of reach of children.**

This Brief Summary summarizes the most important information about STRIBILD. If you would like more information, talk with your healthcare provider. You can also ask your healthcare provider or pharmacist for information about STRIBILD that is written for health professionals, or call 1-800-445-3235 or go to [www.STRIBILD.com](http://www.STRIBILD.com).

# STATE OF THE FAIR ADDRESS

by: **Brad Loekle**

With the recent legalization of weed in Colorado, the Colorado State Fair has decided to add a slew of new events aimed at this new potential clientele. So this year's fair will now include events like plant judging, best brownie recipe, best tie-dye, and a Doritos eating contest. And with more and more states legalizing marijuana each year, I think we need to get a few things straight.

First of all, I don't want anyone to get me wrong: I support the legalization of weed. That shouldn't surprise anyone since I'd probably also support the legalization of hookers, cocaine and kicking babies on planes til they sleep the sleep of angels. Basically, I'm not that opposed to America becoming Thunder Dome. Because, let's face it, it's got to be more interesting that our current government system. However, if we're going to legalize weed that doesn't mean every establishment needs to cater to it. Can you imagine the rise in obesity if McDonald's now starting making an "adult's only" Happy Meal? Complete with a Grimace grinder, a Hamburgler bong and an eighth of Purple Haze?!

State and County fairs are possibly the worst place to start catering to weed users. I mean, where do we begin? Do you know how long it will take to get out of the parking lot at the end of that fair? Everyone will be going 5 miles and hour all the way home and that's if they can even find their car!

Also let's not forget that as it is, fairs are basically Amber Alerts with funnel cake. So you know what we shouldn't add to that: a mild hallucinogenic?! And getting high as baby's balls at the fair means you're going to get some serious munchies. Sure when I'm sober it's easy to resist the idea of a \$10 chicken skewer that's been prepared in questionable food safety conditions and kept outdoors at unsafe temperatures all day. But once I'm high, they'll be no denying my irrational desire to see what a deep fried pickle tastes like (again) once it's been cooking in oil that looks like it came from Jiffy Lube.

I will give the state of Colorado credit though. I mean ticket sales to the fair will at least double when most patrons, after signing the liability waiver to go to the "brownie" tasting contest end up wandering out of the fair two to the three times that day. And, not being able to remember if any of them paid or had been to the fair yet, buy a second and third admission to the fair! Genius!

I like to save my drug use for more traditional times and places: The parking lots of strip clubs, the bathrooms of strip clubs and the garage at my grandmother's house when I'm forced to go to a family event like Christmas or a funeral. Call me old fashioned but for me all you need to truly enjoy a state fair is a good dose of child-like imagination... and a broad spectrum antibiotic in case you touch anything there.

# ZACHARY MOSES : MAN ABOUT TOWN

Being the dangerously exciting father that I am, I got it into my head that I wanted to take my seven year old son jumping off a bridge. He, being pretty much a miniature version of his father; agreed that this was a fabulous idea. So I did some inquiring around and found out about an abandoned bridge on Sugarloaf Key that affords a picturesque splash down into an aquamarine glimmering channel. The area is a quiet hangout for locals and spring-breakers who want to get away from the insanity of Key West.

"It's a great place for parties, but go in the daytime to avoid being eaten alive by no-see-ums," says Trisha Ashcraft, a Key West transplant originally from Chicago. "There's not a lot to do around here besides eating out or going to bars, I love the weather here, but this town needs more alternative activities for locals. Until then, I guess we jump off bridges."

My son had doubts about jumping once he saw the twenty or so foot drop, but once he saw me jump, he spent the afternoon giddily jumping from the bridge or floating with the current in the channel. It was a really rewarding father son activity. He exclaimed "Dad, you're the best Dad ever! I have all my best adventures with you!" Priceless.

To get to the bridge from Key West, drive toward Miami on US1, turn right onto Sugar Loaf Blvd at MM17. Continue until State Road 939A and park your car. Go through the large yellow gates, and you have a half mile walk to the bridge.

In the evening we went to the far edge of Little Hamaca Park, where you'll find the Key West Paint Ball Field. The field is in a bit of disrepair, but is a really fun place to go and play war or cops and robbers with your buddies. You can pick up paintball guns at K-mart, but I would suggest buying them online for more options. Make sure to wear a mask and protective gear!

If you climb to the top of the hill, you'll get a stunning view of the airport, and the salt ponds. It's a wicked cool spot to watch the airplanes taking off and landing. In its heyday, this park was a little bit cruisy, and may still be so at certain times of the day. To get to Little Hamaca, head outbound from Old Town on Flagler Avenue. Turn right on Government Drive, and continue into the park.

Dinner tonight was at Inca's Restaurant located at 800 White Street, just a few blocks down the road from Island House and Alexander's Guest House. The Peruvian fare is a welcome change from the many burger joints that dot Duval Street. I like the aguadito chicken soup. Make sure to ask for hot sauce and toss in a little fried corn!

# Ask Nana

E-mail your questions to [nana@keywestgayrag.com](mailto:nana@keywestgayrag.com)

Dear Nana,

*What's your take on all the controversy now swirling around words like "Tranny"? Do you think people are being too politically correct?*

First of all, one should never be politically correct. Political correctness is the last stronghold of a mediocre mind. However, being nice to other people is not about politics or correctness. Being nice to people is about not being a douchebag and not wanting to get punched in the cunt when you're walking down the street. I think we all get to decide what we like to be called and what we don't. I know gay people who hate the words fag and queer and I know others who adore them, re-appropriate them and wear them as a badge of honor. Because for them, there's a big difference between a guy yelling fag as they chase them down an alley and a friend since childhood calling your dog a fag when it sniffs your butt. I think most people need to do two things that almost seem opposed to each other. They need to care a little bit more how they treat other people and at the same time lighten the fuck up, in general! If you meet a trans person and they hate "tranny", don't use it around them. And if you are a trans person and hear some gay guy call his best friend "tranny" as a greeting... don't assume his goal was to secretly degrade you. If you get to demand what people call YOU than everyone gets to decide what they themselves are called. And remember, it doesn't matter what anyone calls you. It matters who you believe yourself to be.

*Dear Nana,*

*My boyfriend really wants me to try poppers but I've never done a drug in my life and I'm scared to. Am I overreacting? Can you calm me down a little...*

Sure I'll calm you down. When I need to calm down I just take a deep whiff of pop.... Oh, oops! Sorry. Just kidding, kiddo. I have to say I'm actually impressed to find a gay kid over 21 who hasn't already snorted and swallowed his way through the alphabet of bad choices. Drugs are what they are. I don't think they're all bad but I also don't think they're that exciting. But here's the best part: poppers aren't really a DRUG. You're not going to get addicted to poppers. And unless you're a moron and try to drink them or use them as nasal spray, there really shouldn't be any issues with using them. And, if you're a bottom, they really do come in handy. I remember when my first gay friend told me they helped with guys who want to go in through the backdoor and I was pissed no one had told me sooner?! All those years I'd just been using 2 dry martinis to help in that department! So don't be scared. Poppers won't kill you. But if you don't want to, tell your boyfriend to chill out. And if he can't chill out, tell him to try some poppers.

*Do you have problems? Of course you do!!  
Why not let Nana help you?! Send your questions to:  
Nana@keywestgayrag.com.*

## **Aquarius**

**Jan 20 – Feb 18**

With the game of Thrones season ending approaching, you will have to revert to posting pictures of your cats on Facebook.

## **Pisces**

**Feb 19 – Mar 20**

June is Pride month. Take pride in yourself. Take pride in your obesity and bad complexion!

## **Aries**

**Mar 21 – Apr 19**

So after watching the dancers on the bar you wish you could try that. Well you're about 20 years and 30 pounds too late.

## **Taurus**

**Apr 20 – May 20**

It doesn't matter how many drinks you pour down that boy's throat. He will not go home with you. No amount of liquor could cloud someone's judgment that much!

## **Gemini**

**May 21 – Jun 20**

It's time to start cleaning house. Start with that low life that's living in your house and not paying any rent. Oh, sorry, this was for your roommate.

## **Cancer**

**Jun 21 – Jul 22**

You have a face only a mother could love, and she's only being polite.

## **Leo**

**Jul 23 – Aug 22**

Your online photo is so old, there's a Dukes of Hazard poster in the background!

## **Virgo**

**Aug 23 – Sep 22**

You are always late to everything. You blame it on the fact that you don't have a watch. Yet, you're on Grindr all the time. Look on the upper right hand side of the screen when you're on Grindr. Look, a clock!!

## **Libra**

**Sep 23 – Oct 22**

Bravo on finally trying to lose some weight. Unfortunately, leaving one cookie in the bag instead of eating the whole bag in one sitting, is not "portion control."

## **Scorpio**

**Oct 23 – Nov 21**

Congratulations. Someone thought you were a celebrity because you look just like one. Sadly, it was Mama June from Honey Boo Boo.

## **Sagittarius**

**Nov 22 – Dec 21**

You have such a poor sense of direction you can't even find your way out of the bathroom.

## **Capricorn**

**Dec 22 – Jan 19**

You are the only person I know that has never had an STD. Perhaps that's because no one will sleep with you.
