E-mail your questions to nana@keywestgayrag.com

Dear Nana,

I've been seeing a guy for a little over a month. We have a tremendous connection both in and out of bed. We have both been tested very recently for STD's and have both come up negative of all STD's. But, since it hasn't been six months since the last time I had bareback sex with someone (my ex), my doctor is telling me that my new beau and I should really wait the standard 6 month period before we are retested and then consider unprotected sex. My only problem with that is, as the bottom, condoms really don't feel good for me. I have a little bit of a latex allergy (it's real, not mental... I've checked). With both of us being responsible people, the likelihood is that we will still be negative in 5 months... so should we go for it now?

Really? You really need an 80-something year old woman to give you the answer to this one? Listen, party bottom, if you're both so responsible then just wait the 5 months. If you're really that in love, then you should still be together in 5 months, 5 years, 5 decades, right?! Remember, you don't just have

to keep HIV in mind. There are all sorts of warts, sores, bubbles and boils to worry about. So suck it up and use the condom... or just suck it up in general and skip the anal. I feel for you, though, fudge nugget. Back in my day, all we had to worry about was getting pregnant or the clap. And believe me; I wasn't as smart then as I am now. I got the clap so many times my doctor started calling it "applause"!

Dear Nana,

Do you believe in God? And if so, which one?

Now that has got to be the most loaded question you've all ever asked me. Well, let me tell you, my little cum dumpsters, I can honestly say that I would like to believe in God. I've read about all the Jesuses, Buddhas, Allahs, and Oprahs and I can honestly say that they all seem like swell guys. But after 80 years I can honestly say that I still don't feel right wearing the tee shirt for just one of them. And that's for two reasons: first, I'm just hedging my bets for that last great escalator ride going up (or down); and second because if God made me and knows me, then he doesn't need me to spend my life cheerleading for him. I had great parents, loved them all their life and all of mine too. But I don't need to go out in public and stand on a soapbox and force people on the street to hear about them. And I certainly don't need to prove to others that my parents are better than THEIR parents or that my parents would have hated them. I know you'd like for an old broad like me to have answers for you. Some answers, to something, somewhere... So here's what I will tell you that I've learned over the better part of a century: drink a big glass of water before you go to bed drunk, build relationships the way others build wealth, and never underestimate the health benefits of a good morning shit.

*Do you have problems? Of course you do!! Why not let Nana help you?! Send your questions to:

Odds & Ends

by: **Brad Loekle**

Over the past month, there has been a flurry of odd news stories that I think have been lost in the media fray. Between Michael Jackson's "Farewell Tour" and John & Kate taking over the headlines with her Flock of Seagulls mom cut and his Buddha in Ed Hardy good looks. So now, I will attempt to catch you all up on the more enjoyable and odder stories I've come across as I sit on my couch and eat Hot Pockets in my underoos:

*A new Guinness World Record was set by a woman in Russia for having... the strongest vagina. Her vagina can lift 38 pounds. Great, as if I wasn't scared enough of vaginas, now there is one that can gay bash me! Her husband claims that the sex with her is amazing because of her He-Mangina. I'm sure it is, but for your sake I hope she never sneezes while you're inside her!

*There is a growing movement of people who call themselves "The Birthers". They believe, in a nutshell, that Barack Obama isn't a born citizen and thus can't be president. Believe me, I don't think the government gets a lot right; but I'm sure at some point he had to present a valid birth certificate. Maybe not when he ran for president but, oh, I don't know, when he got a driver's license?! Birthers is just a real modern way of saying KKK. We could show these people a home movie of Babyrack Obama erupting forth from his mother's loins, like Simba, with hula dancers as nurses and Paul Revere cutting the cord and they still wouldn't believe he is American. If you really need to see his birth certificate, then fine, go look it up. But if I'm going to be forced to look for the president's birth certificate on CNN, can we also dig up Sarah Palin's SAT scores? Or better yet, John McCain's

birth certificate... that's if it wasn't lost after the burning of the library of Alexandria during Caesar's reign...

*Someone tried to smuggle several kilos of cocaine in the U.S. by using turkeys as drug mules. Do you think the customs agents first became suspicious when the turkeys couldn't stop talking about themselves and asking strangers for gum? Customs now says that they are not sure how long this has been going on for, and how many cocaine stuffed birds have already made it into the United States... November is gonna fucking RULE!

*Amy Winehouse is releasing a line of stationary and wrapping paper that bares her name and lyrics to her one hit, "Rehab". If Amy Winehouse is going to come out with a line of products, shouldn't it be something that better represents her work? For instance, perhaps a line of ointments and antibiotics would be more appropriate. Or maybe she could revive the Disney franchise of "Pirate of the Caribbean". Amy Winehouse stars in "Pirates of the Caribbean 4: Curse of the British Crabs".

*And finally, a study was released recently that says that 80% of U.S. paper money has traces of cocaine on it. So, to the people of America I say "You're Welcome"! I'm sorry I haven't gotten around to the other 20% yet, but I have to chew gum and watch my dick shrivel up into an "innie" at least half of the time. And for those of you reading who don't use drugs, let me assure you that you benefit from this as well. I mean, if it wasn't for all of use drug users there would be NO value left to a dollar bill!

KEY WEST BUSINESS GUILD

Whore--Scopes

Aquarius

Jan 20 – Feb 18

You can love and hate at the same time. But your Betty Davis / Joan Crawford personality has long been known, explaining your lack of friends, not to fear, season's coming and a new batch of unsuspecting visitors will be around to give you new meat to work on.

Pisces

Feb 19 – Mar 20

You're in a quiet and meditative mood today, thinking about things very deeply. Where will you get your next cocktail, do you have enough rolling papers for the weekend and can you afford a new pair of Prada pumps for the Fantasy Fest parade? Thank God SOMEONE has priorities!

Aries

Mar 21 – Apr 19

Be firm about saying no when too many demands are made on your time and stamina. Those legs have been up in the air for so long your heads beginning to swell.

Taurus

Apr 20 – May 20

There is a physical aspect of someone you know that you've never noticed before. To be exact, that would be the unibrow that you thought was a misplaced goatee.

Gemini

May 21 – Jun 20

Grab any excuse to party today, because that's exactly what you're in the mood for and unfortunately it's the only thing you're good at.

Cancer

Jun 21 – Jul 22

There will be strong feelings and emotional situations throughout the month. This will be caused because of the unfortunate trashy weekend you had with two different men that were married.....to each other....and they each cheated with you. This won't be a pretty month.

Leo

Jul 23 – Aug 22

Forget about protecting yourself this month. Since most of your friends have given up on you, I suggest listening to anyone that will speak to you.

Virgo

Aug 23 – Sep 22

You have many unusual and original character traits, and you take pride in the elements of your life which are unique. In particular, that set of sexual positions you showed off at last weeks pool party will follow you for the rest of your life, unfortunately.

Libra

Sep 23 – Oct 22

You tend to see life as a drama where the spotlight is on you. Some people may feel that you are self-centered in this respect. That would be correct, but to be honest, you are far worse than that!

Scorpio

Oct 23 – Nov 21

Someone wants to go their own way today and they won't care whose feathers they ruffle in the process. Well, let them do as they wish, then, when everything is calm, slap the hell out of them and go have a jello shot.

Sagittarius

Nov 22 – Dec 21

You may be experiencing feelings for someone. Careful not to be caught in another love triangle like our Cancer brother did last month! Ditch both of them and go out with your trashy friends. MUCH more fun, cheaper in the long run, and there are at least ten others waiting for you.

Capricorn

Dec 22 – Jan 19

If you're celebrating some sort of event, you couldn't have chosen a better day to whoop it up. One, because there is nobody to stop you and two, because nobody cares what you do anyway.
